

One channel li-ion battery charger XTAR MC1 spec:

Model #	XTAR MC1
Basic info	
Technology Brief introduce	MINI single charger
	LED indicator
	Activate 0V battery to charge
	Intelligent security charge
	Three-gradation charge(TC/CC/CV)
	Reverse-polarity protection circuit board
	Under voltage disconnection technology
Size	92mm(L)x22mm(W)x26mm(H)
Weight	20g
Operation Temperature	0-40℃
Charging Function	
Suitable for	10440/14500/14650/16340/17500/17670/18350/18500/18650/18700/22650/25500/26650 li-ion battery
Adaptor Input	5V DC, 500mA
Lithium battery charging parameter	
Constant Charge Current	500mA±50mA
Terminated Voltage	4.2V±0.05V
Auto Recharging Threshold Value Voltage	≤4.13V
Standard package:	Charger, USB cable, manual, warranty card, package
